WORK EXPERIENCE

Software Engineer, LII Lab

12/2024 – present | Sylhet, Bangladesh

- Built QTI Rendering Engine for the **Most Sold app** product of company from scratch
Technology: Flutter

Impact: Dynamic question rendering for **35k+** monthly active and **250K+** total downloads.

- Rework an existing **social media utility** app maintaining clean architecture and best practices from ground

Technology: Android Native (Kotlin + XML)

Impact: **1M+** Google Play downloads and **30k+** DAU

Software Engineer, Concept Soft

02/2024 – 11/2024 | Remote, Sweden

- Built a real-time **audio processing app** from ground
Technology: Android Native(Kotlin + XML), C++ (via JNI), FMOD Sound Engine C++ Library
- Impact: **20k+** downloads and **2000+** daily active users.

Software Engineer, Hackules Ltd.

05/2023 – 01/2024 | Remote, Bangladesh

- Contributed in app for edtech platform (**Kotlin, XML**)

Flutter Developer, Swadeshi Branding Limited

11/2020 – 02/2021 | Dhaka, Bangladesh

- Developed and maintained an e-commerce and seller management app for buyer and vendors
Technology: Flutter

SKILLS

Framework (Android Native, Flutter) | **Language** (Kotlin,

Dart, C/C++) | **Tools** (Git, Jira, Confluence, Postman) |

Database (MySQL) | **OS** (MacOS, Linux, Windows) |

Shell (BASH, ZSH, CMD) | **AI** (Claude, Cursor and Agents)

EDUCATION

M.Sc in Computer Science and Engineering,

Shahjalal University of Science and Technology

present | Sylhet, Bangladesh

Relevant Courses: Deep Learning, Image Processing, NLP, Speech Signal Processing, Cryptography and Network Security, Distributed System, BigData Analysis, Software Quality Assurance

B.Sc in Mathematics,

Shahjalal University of Science and Technology

Relevant Courses: Programming(C/C++), Data Structure, Algorithm Design and Analysis, Discrete Mathematics, Numerical Analysis, MATLAB

ACHIEVEMENTS IN PROBLEM SOLVING

Facebook Hacker Cup 2023, Meta

Ranked in the top 9% placing 1856th among 20K+ participants

Specialist rated at Codeforces.com

Among the top 13% out of 142K+ active users

Max Rating: 1454

See my codes here

Google Code Jam 2023, Google

Ranked in the top 16% placing 1321st among 8076 participants

Problem Solving in Online Judges

Codes in AtCoder

Codes in Codechef.com

Codes in HackerRank.com

Solved more than 2000 data structure, algorithm and mathematics based programming problems

PROJECTS

Android based app for vehicle dashboard and sensor for them

A Flutter app functions as a vehicle dashboard which displays reading from sensors built on top of ESP-32

Technology: **Flutter(Dart), Arduino(C++), ESP-32(device), Hall Sensor, Schmitt Trigger**

Home Automation,

Remote control solution for home appliance

Flutter app with voice recognition to remotely control home appliances through an ESP-32 board and relay switch, using WiFi and WebSocket.

Technology: **Flutter, Arduino, ESP-32**

Clone social app like Facebook

Implementation of UI and functionality of basic parts of social app in Android

Technology: **Kotlin, XML**

Speech recognition solution for old desktop computer

A desktop application which activates the speech recognition module of an Android device and inputs the transcribed text into the currently focused textbox of any desktop program.

Technology: **Qt(C++), Android(JAVA, XML)**

VOLUNTARY WORKS

Euclid Programming Club,

Programming and Problem solving instructor

2019 – 2023 | Sylhet, Bangladesh
